

Regional Visioning Workshop

Derry, Londonderry and Windham

Granite State Future: Moving Southern New Hampshire Forward

How can we make Southern New Hampshire the best place to live, learn, work, and play for everyone?

We imagine you have great answers to this question and we hope you will consider being a part of an upcoming **informative conversation** about the future of our communities, our region, and our state.

Please join us for a public planning workshop where we will explore this question and get your ideas on what our vision of the future should look like!

Please RSVP to Imoore@snhpc.org, or 669-4664

This workshop is free and open to the public.
